ISO 9001:2008 Certification Earned By CollabraTech Solutions LLC

Fast-growing contract manufacturer takes steps to ensure the highest level of customer satisfaction

PHOENIX – Sept. 16, 2014 – [CollabraTech Solutions](#), a fully integrated manufacturing solutions provider, is pleased to announce that it has recently been awarded an ISO 9001:2008 management system certificate by SRI Quality System Registrar. The ISO 9001:2008 standard is a process-based certification that recognizes organizations that link business objectives with operating effectiveness. Companies that achieve management system certification to ISO 9001:2008 have demonstrated effective implementation of documentation and records management, good planning and implementation, efficient process controls, effective resource management, and comprehensive measurement and analysis of their systems. Achieving certification also serves to demonstrate management's commitment to the continual improvement of their operations and denotes that philosophy has been institutionalized within the company.

According to Steve Lemons, CollabraTech Solutions' President, "In order to efficiently manage our explosive growth and expansion into new markets, it was imperative to have an effective quality management system firmly in place. Culminating with achieving our ISO 9001:2008 certification, we have created a well-thought-out and valued-added system that further enables our team to provide industry-leading solutions and enhance customer satisfaction."

"We are pleased to acknowledge that CollabraTech Solutions LLC has demonstrated effective implementation of a management system," said Edward L. Maschmeier, Director, Certification at SRI. "ISO 9000 certification provides evidence to customers, suppliers, employees and their community of CollabraTech Solutions' commitment to generating a quality product and providing customer satisfaction."

About CollabraTech Solutions
